Integrated Labeling Solutions

Robotag is the specialist in labeling flower and plant sleeves. Our offerings range from unprinted labels to our complete Label Service, the selection is extensive.

We supply unprinted labels at a competitive price.

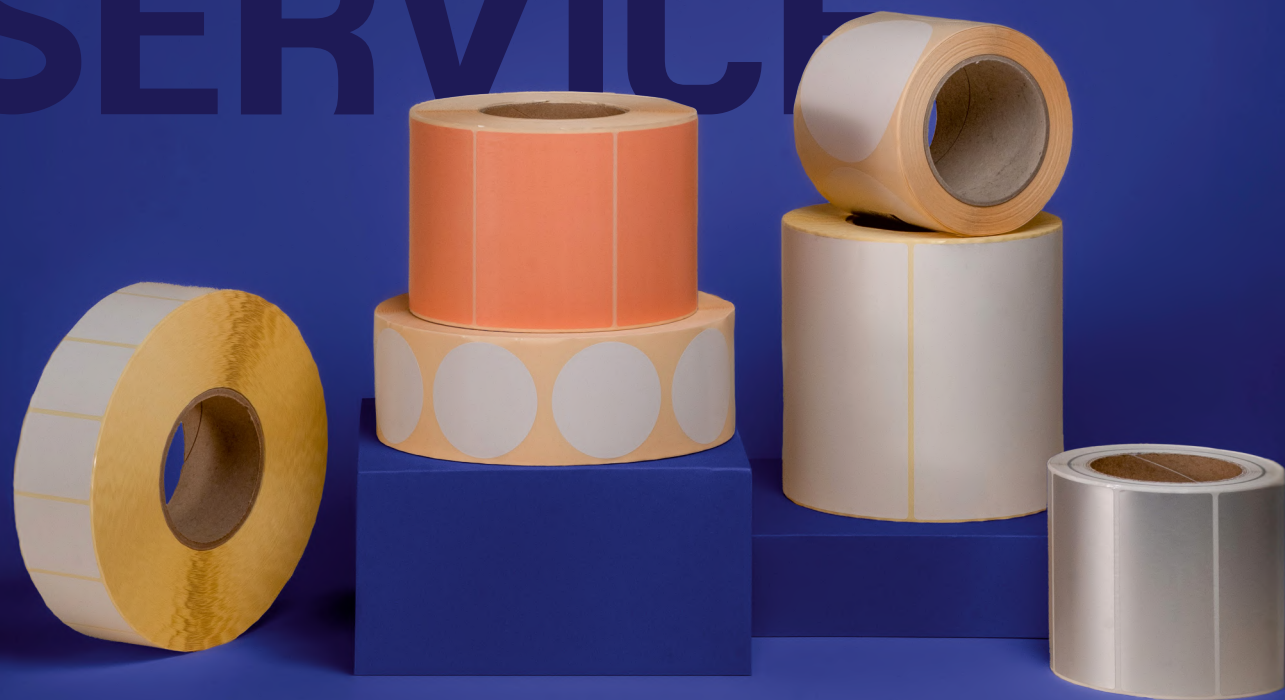

We supply one- or two-sided pre-printed labels printed in our print shop. We ship labels to growers in the Netherlands and abroad. We supply sleeves labeled with one or more labels. Your needs and those of your customers are always our priority. With over twenty years of experience and a strong position in the international market, Robotag combines innovation with practical service.

Our two departments, Robotag Label Service, with locations at the largest flower auctions in the Netherlands, and Robotag Sales, a supplier of advanced labeling machines, together provide a complete and future-oriented solution for every labeling challenge.

Printshop

We print (pre-printed) labels on rolls

- many different types of labels available
- printed work always scannable and readable
- print after customer approval
- a quality check with every order
- fast delivery, often within 1 working day

Complete labeling service

We provide a service for sleeves with 1 or more labels

- stick 1 or more labels on a sleeve
- due to machine labeling, the label is always applied in the same position
- choice of many types of labels and sleeve
- lowest price in the market
- fast delivery, even for large quantities

© Label with own design give You many possibilities

Printing labels has never been easier

Assortment of labels

In addition to many different sizes, we can also supply different quality labels

- Removable
- Plastic
- Paper
- Transparent
- Slotted labels
- Stick-in labels
- Thermal labels

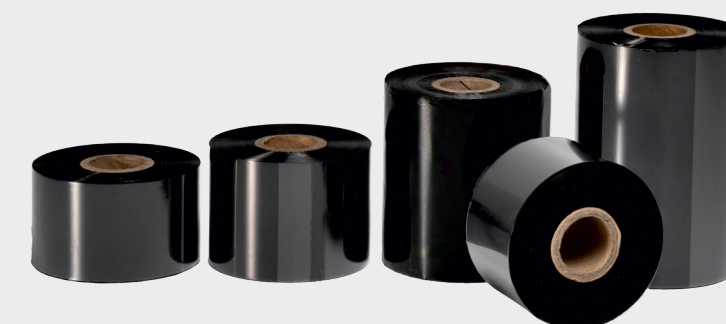

We can supply unprinted, pre-printed, and pre-printed labels. We also supply TTR ribbons.

Quality

Benefit from a lower purchase price for unprinted sleeves and labels or competitive prices for pre-printed and printed labels. Every order undergoes a quality check.

We test the label design for scannability and readability.
